33	Activities of the College Students' Union	78.01
34	General discipline in the college	78.85
35	Opportunities in the college for your overall academic and personal growth	78.97

Suggestions for improving the functioning of the college: -

- Keep updating things with time.
- Still tied up in old system.. need upgrades.
- To give guidance in careers and also the infrastructure development. Better if hostel facilities too improved.
- Better canteen
- Improve lab facilities
- Maintain all facilities in a 4 way
- All the facilities provided by the management should be maintained continuously (Hostel, girls room specially), Need more effective internal assessment, Career guidance and counselling cell should be more effective in order to help every single student in college for their better future. Management should ensure peace in college while the protests and programs are being conducted by Student unions. Need equal importance for academics(completion of lessons,internal assessment,effective teaching) with all arts sports and cultural activities
- Kindly offer a permanent remedial to the problems of girl's room. The attitude of the college office, especially towards arts students is unpleasant. The functioning of the college library is really 4, however the number of books in English language, especially those belonging to the modern era is less. Kindly provide grant for the same.
- Offer services beyond learning
- Library time should be extended Wi-Fi connection should be established in hostel.
- There is an issue of water every day. That must be cleared. For science Students they need better laboratory requirements. Many of the equipments in laboratory aren't in 4 working condition.
- Western block class rooms are too small to include 60+ students
- Increasing canteen facilities
- Computer facilities for student
- Need some bonds between teachers and students.

- Students encouragement programmes should be implemented in academic and in extracurricular activities.
- കോളേജിന്റെ ബ്രിസിംഗ് സമയം കുറയ്ക്കാൻ പാടില്ല. ഗേൾസ് സ്മിത്ത് മെച്ചപ്പെട്ട സൗകര്യങ്ങൾ ഏർപ്പെടുത്തണം. കൂടുതൽ പി. ജി കോഴ്സുകൾക്ക് അംഗീകാരം നേടിയെടുക്കാൻ വേണ്ടുന്ന ഇടപെടൽ നടത്തണം. കമ്പ്യൂട്ടർ ലാബ് എല്ലാ ഡിപ്പാർട്ട്മെന്റിലെ വിദ്യാർത്ഥികൾക്കും കർശനമേൽനോട്ടത്തിൽ കീഴിൽ ഉപയോഗിക്കാൻ കഴിയണം. പ്ലേസ് മെന്റിനും, കരിയർ ഗൈഡൻസിനും കൂടുതൽ പ്രാധാന്യം നൽകണം.
- Should improve fairness of internal assessment especially in complementary courses and English. The attitude of guest teachers in English department towards the students in history department is impartial and its effect is very clear in the total result of department. Also, there should be an effective system to complaint about our teachers. Complaint boxes are not effective. Should improve the quality of teacher.
- Teachers trying to make a close relationship with students and water facility is two in the college so improving water facility system
- Please developing more opportunities for students with their arguments
- Asa PG student in Physics I felt;-
 1. Central library is only useful for unacademic books and newspapers. The reference section for Physics especially PG is 2 and pathetic. There is no reference texts or texts which are useful and not even previous year question papers are maintained and provided properly. It must be improved.
 2. Laboratory facilities for MSc Physics is very bad. Even sufficient Basic instruments and devices for a physics lab such as properly working Multimeters, CROs etc... are not provided... Always we are supposed to share the only one working Multimeter and CRO between us... Also it is very bad to say that, there is not even sufficient and properly working extension boards for the power supply. It should be taken much seriously.
 3. Department library should be improved much more better. The availability of books doesn't met the needs. There is not any reference section and space for reading.
 4. Each department should make available Medical First Aid kits and usual necessary medicines and tablets. Once when we are necessary, we are supposed to approach college office which is always not much favourable.
 5. Please open the college classrooms at least 45 minutes before the class hours. It might be very useful for students who reach earlier from more distant places.
- Model exams must be held. General discipline must be enhanced. Regular classes should be conducted. Online classes I mean.
- Better hostel facilities
- Classrooms should be equipped with more learning facilities
- The college can provide uniform and it is better if there is college bus
- More improve for the hostel facilities and fees.
- College has to conduct more Activities and programmes.
- Provide for meaningful teacher-student interactions. Make course expectations clear and based on learning outcomes.
- There is a shortage of water sometimes. so it wants to be cleared
- Increase teachers' student's interaction, support backward students
- Teacher student relation should be enhanced by certain activities.

- Listen to students. Select students from all backgrounds and their academic backgrounds and just listen their difficulties to improve the quality of education.
- Provide better facilities to the girls' room and provide water supply in all taps
